Agenda

- **National Industrial Security Program**
- **Definitions**
- **Industrial Security Requirements**
- **Facility Clearance Process**
- **Key Points**
- **Questions**

National Industrial Security Program (NISP)

- U.S. industry develops and produces the majority of our nation's defense technology-much of which is classified-and thus plays a significant role in creating and protecting the information that is vital to our national security.
- The National Industrial Security Program (NISP) was established to ensure that cleared U.S. defense industry safeguards the classified information in their possession while performing work on contracts, programs, bids, or research and development efforts.
- The Defense Security Service (DSS) administers the NISP on behalf of the Department of Defense.

Definitions

- **Classified Contract**
  - Any Contract that requires or will require access to classified information by the contractor or his employees in the performance of the contract. Access to classified information may take place at the contractor's facility, the government site, or another contractor facility. (A contract may be classified even though the contract document is not classified).

- **Facility**
  - A plant, laboratory, office, college, university, or commercial structure with associated warehouses, storage areas, utilities and components which, when related by function and location, form an operating entity.

- **Facility Security Clearance**
  - An administrative determination that, from a security standpoint, a facility is eligible for access to classified information of a certain category (and all lower categories).

Definitions (Continued)

- **Industrial Security**
  - That portion of information security which is concerned with the protection of classified information in the custody of U.S. industry.
- **Personnel Security Clearance**
  - An administrative determination that an individual is eligible, from a security point of view, for access to classified information of the same or lower category as the level of personnel clearance being granted.
- **Safeguarding**
  - Measures and controls that are prescribed to protect classified information. Safeguarding and protection of classified information are synonymous terms.

REMEMBER!!!

FACILITY = PEOPLE

SAFEGUARDING = STORAGE

JIEDD-TF/AWG Industrial Security Requirements

- **Identified in Procurement Package**
  - Performance Work Statement
  - DD Form 254, DOD Contract Security Classification Specification
- **Classified Access at Government Location**
- **No Classified Storage at Contractor Facility**
- **TOP SECRET Facility Clearance**
  - Majority of the Contractor Personnel Must Possess a TOP SECRET Clearance
  - All Personnel Required to have a SECRET Clearance

Facility Clearance Process

- **Sponsorship (Request for a Facility Clearance)**
  - Government for Prime Contractor
  - Cleared Contractor for Sub-Contractor
  - Facility Can Not “Self Sponsor”
- **Sponsorship Letter & DD Form 254 to Defense Industrial Security Clearance Office, Facility Clearance Division**
  - Reviews Request
  - Forwards Request to Appropriate DSS Regional Office
  - DSS Regional Office Assigns Facility to a DSS Industrial Security Representative

Facility Clearance Process - Continued

- **Industrial Security Representative Contacts Facility**
  - Obtains Information About Facility
  - Provides Facility with Instructions on Completing Paperwork
  - Provides Basic Information about the NISP
  - Provides Guidance in Establishing an Industrial Security Program
- **Five Essential Elements of Facility Clearance Process**
  - Sponsorship
  - Business Structure/Organization
  - Security Agreement
  - Foreign Ownership, Control, Interest (FOCI)
  - Key Management Personnel

Facility Clearance Process -Continued

- **Final Facility Clearance will be granted as soon as all final clearance requirements are satisfied.**
- **These requirements include:**
  - Issuance of final personnel clearances for the Key Management Personnel (KMPs).
  - Execution of the DOD Security Agreement between the contractor and DSS.
  - A favorable foreign ownership, control, or influence (FOCI) determination.

Facility Clearances – Key Points

- Although called a “Facility Clearance” the actual building or structure is not cleared; the individual who run, own, or manage the facility are cleared. These individuals are known as “Key Management Personnel (KMP).”
- A Facility Clearance is not granted until all KMPs receive their personnel clearances.
- Individual clearances are not recognized until facility clearance is granted.
- If a contractor requires the storing of classified information at a contractor facility, the contractor requires not only a facility clearance, but also safeguarding capabilities.

JIEDD-TF/AWG Mission

The JIEDD-TF/AWG conduct CONUS and OCONUS operations in support of Joint and Army Force Commanders to mitigate and defeat specified asymmetric threats. The mission includes, but is not limited to:

- **Serve as the conventional global DoD expert in IEDs.**
- **Serve as experts in AW.**
- **Conduct predictive modeling and trend analyses concerning global asymmetric threats.**
- **Conduct trend analyses and produce predictive models on specific threats confronting supported units.**
- **Deploy, integrate, coordinate and execute battle command of assigned and attached forces.**

JIEDD-TF/AWG Mission – (Cont)

- **Assist supported combatant commanders to develop and maintain the AW Joint Common Operational Picture (JCOP).**
- **Conduct advisory CONUS and OCONUS training for in-theater or pre-deployment forces.**
- **Support identification, development and accelerated integration of lessons-learned, TTPs, and countermeasure technologies.**
- **Establish linkages with all internal, combatant command, and national intelligence agencies.**
- **Establish linkages with all appropriate intelligence sources and centers.**
- **Analyze asymmetric threats.**
- **Assist in exploitation and operational analyses of asymmetric threats.**

JIEDD-TF/AWG Support Services Acquisition

This acquisition is for CONUS and OCONUS (including the CENTCOM Theater of Operations) critical services required to support the Joint Improvised Explosive Device Defeat Task Force (JIEDD-TF) and the US Army Asymmetric Warfare Group (USAAWG or AWG). Acquisition Considerations

- **Number of Awards**
- **Acquisition Methodology**
- **Contract Type**
- **Incentive Mechanisms**
- **Contract Period of Performance**
- **Appropriate North American Industry Classification System (NAICS) Code**
- **Subcontracting Goals**
- **Small Business Considerations**
- **Performance Work Statement (Statement of Objectives) vs Scope of Work**
- **Labor Categories**
- **CLIN Structure**
- **OCI Implications**
- **OCONUS Deployment Considerations**

Current Acquisition Strategy

- **PERIOD OF PERFORMANCE**
  - **5 years (estimated date of award April 2006)**
- **COMPETITION**
  - **Best-Value Source Selection**
- **CONTRACT TYPE**
  - **Indefinite Delivery/Indefinite Quantity (ID/IQ) with Fixed Price (FP) Labor Categories and Cost Reimbursable (CR) Travel & ODCs**
  - **Multiple pricing arrangements**
  - **Effort directed via issuance of task orders (T/Os)**

Acquisition Strategy - Knowns

- **Single Award**
- **NAICS Code: 541710**
- **Small Business Size Standard: 1,000 Employees**
- **5 year ID/IQ Contract**
- **Funding obligated in individual Task Orders**
- **Direction via individual Task Orders**
- **Performance in CONUS and OCONUS locations**

Acquisition Strategy – Knowns (cont)

- **Proposals evaluated on Technical, Management, Past Performance, and Cost/Price *(TBD – see solicitation)***
- **Award will be Predicated Upon Receipt of Proposals That Meet the Criteria for Best Value Selection Stated in the Solicitation**
- **Initial Task Order Performance Work Statement will be included and evaluated in competition**
- **OCI clause in the contract; specified OCI Determination Format/ Process**
- **Teaming is encouraged and Government will NOT restrict number and/or type of teaming arrangements**

Acquisition Strategy – To Be Determined (TBD)

- **Definition & Weighting of Evaluation Factors/Subfactors**
- **Specific CLIN Structure**
- **Use of Special/Unique Provisions and/or Clauses**
- **Inclusion and use of Incentives**

Indefinite Delivery/Indefinite Quantity Contract (ID/IQ)

- **An indefinite-quantity contract provides for an indefinite quantity, within stated limits, of supplies or services to be furnished during a fixed period, with deliveries or performance to be scheduled by placing orders with the contractor.**

- **A task order (T/O) must be issued by the Contracting Officer prior to starting work.**

Task Order Contract

“Task Order Contract” means a contract for services that does not procure or specify a firm quantity of services (other than a minimum or maximum quantity) and that provides for the issuance of orders for the performance of tasks during the period of performance.

What is a Task Order ?

- **Stand-alone vehicle (mini contract)**
- **Executed by Contracting Officer**
- **Defines:**
  - **Requirements**
  - **Deliverables**
  - **Funding**
  - **Travel Requirements**
  - **Materials**
- **Obligates funding**

JIEDD-TF/AWG Indefinite Delivery/Indefinite Quantity Contract (ID/IQ)

- **Type of contract: Indefinite Delivery/Indefinite Quantity (ID/IQ) with multiple pricing arrangements including Firm Fixed Price and Cost Plus Fixed Fee for individual task orders.**

- **Task Orders issued on an "as required" basis, providing maximum flexibility to respond to evolving and critical JIEDD-TF/AWG missions in support of the Global War on Terrorism (GWOT).**

- **Specific performance requirements will be set forth in individual Task Orders (T/Os) issued under the contract.**

- **The T/Os may be issued for the JIEDD-TF and the AWG or other associated AW program management, requirements organizations, or as directed by higher headquarters in support of their current missions**

JIEDD-TF/AWG Projected Task Orders

- **Initial Task Order will provide AWG mission support (estimated period of performance is 01 Apr – 31 Dec 2006).**

- **Projected Task Order 0002 will provide JIEDD-TF and AWG mission support (CONUS & OCONUS) for 01 Jan – 31 Dec 2007.**

PERFORMANCE WORK STATEMENT (PWS) Representative Tasks

The Contractor shall support the JIEDD-TF/AWG mission and functions as set forth in individual task orders. Representative tasks may include, but are not limited to:

- **Intelligence and analysis to support Army, Joint Forces, and National intelligence activities and law enforcement agencies.**
- **Intelligence exploitation and site surveys to assist with AW attack investigations and recovery in operational theater.**
- **Planning, developing, utilizing, and exploiting intelligence information as it pertains to asymmetric threats and warfare.**
